Minneapolis VAHCS Residency Programs

Thank you for inquiring about the Minneapolis VA Health Care System (MVAHCS) Pharmacy Residency Programs. We are pleased you are considering our program(s) for your professional future! This booklet provides valuable information about our facility, teaching programs, preceptor faculty, and clinical practice experiences for the following residency programs:

- **PGY1** - General, established 1963, ASHP-accredited (3 positions)
- **PGY1** - Rural Health Program, established 2011, ASHP-accredited (1 position)
- **PGY1** - Mental Health Track, established 2012, ASHP-accredited (1 position)
- **PGY2** - Psychiatric Pharmacy, established 2013, ASHP-accredited status (1 position)

At the MVAHCS, 100 pharmacists play a vital role in the delivery of patient care; working closely with physicians, nurses and other health care team members to ensure America’s Veterans receive the finest care. We pride ourselves in providing an innovative and unique pharmaceutical care program in which all pharmacists participate.

As a resident, you will have the unique opportunity to gain clinical experience in a multitude of settings and practice environments with the opportunity to customize your residency based on your own professional interests. You will be directly involved in providing patient-oriented pharmaceutical care as well as completing projects and being involved in precepting opportunities through our affiliation with the Colleges of Pharmacy from the University of Minnesota, North Dakota State University, South Dakota State University, Concordia University, and Creighton University. This residency program is designed to provide you with a comprehensive, well-rounded experience that will build a solid foundation for your future.

We hope you will decide to join us for your residency year at the MVAHCS. We look forward to receiving your application!

The VA Health Care System

Veterans Administration (VA) Mission
To fulfill President Lincoln’s promise: “To care for him who shall have borne the battle, and for his widow, and his orphan” by serving and honoring the men and women who are America’s Veterans.

About the Veterans Health Administration (VHA)
The Veterans Health Administration is home to the United States’ largest integrated health care system consisting of 150 medical centers, nearly 1,400 community-based outpatient clinics, community living centers, Vet Centers and Domiciliaries. Together these health care facilities, and the more than 53,000 independent licensed health care practitioners who work within them, provide comprehensive care to more than 8.3 million Veterans each year.

VHA Mission
Honor America’s Veterans by providing exceptional health care that improves their health and well-being.

VHA Vision
VHA will continue to be the benchmark of excellence and value in health care and benefits by providing exemplary services that are both patient centered and evidence based. This care will be delivered by engaged, collaborative teams in an integrated environment that supports learning, discovery and continuous improvement. It will emphasize prevention and population health and contribute to the nation’s well-being through education, research and service in national emergencies.

Core Values (I.C.A.R.E)
Integrity: Act with high moral principle.
Commitment: Work diligently to serve veterans and other beneficiaries.
Advocacy: Be truly veteran-centric by identifying, fully considering, and appropriately advancing the interests of veterans and other beneficiaries.
Respect: Treat all those I serve and with whom I work with dignity and respect.
Excellence: Strive for the highest quality and continuous improvement.
Minnesota VA Health Care System

The MVAHCS is a teaching facility which operates approximately 273 acute care beds as well as 104 long term care beds through the Community Living Center. In addition to offering primary, extended, and specialty care, Minneapolis operates community based outpatient clinics (CBOCs) such as Rice Lake & Hayward CBOC. Pharmacy Service at Minneapolis is affiliated with the Colleges of Pharmacy from the University of Minnesota, North Dakota State University, South Dakota State University, Concordia University, and Creighton University. The MVAHCS is institutionally affiliated with University of Minnesota, School of Medicine.

The MVAHCS is part of the VA Midwest Health Care Network, also known as Veterans Integrated Service Network (VISN) 23. VISN 23 serves more than 430,000 enrolled veterans, and delivers health care services through 8 hospitals, 63 community based outpatient or outreach clinics, 8 community living centers and 4 domiciliary residential rehabilitation treatment programs. The Network employs over 12,500 full-time employees and has an annual operating budget in excess of $2.5 billion. MVAHCS is one of the ten largest VA medical centers in the country, serving more than 100,000 veterans in a six-state area of the upper Midwest. Our facility is a teaching hospital providing a full range of patient care services with state-of-the-art technology, educational resources, and research. Comprehensive health care is provided through primary care, specialty care, and long-term care in areas of medicine, surgery, psychiatry, neurology, oncology, and geriatrics.
Applying to MVAHCS Pharmacy Residency

Requirements and Eligibility
1. Be registered with ASHP Resident Matching Program
2. Doctor of Pharmacy Degree from an ACPE accredited school of pharmacy
3. United States Citizenship
4. Pharmacy licensure or test-eligible

Application Process
1. All application materials must be submitted through the Pharmacy Online Residency Centralized Application Service (PhORCAS), plus required supplemental materials as follows:
   a. **Letter of Intent**: For PGY-1 residency positions, please specify which residency you would like to apply for; the PGY-1 general residency based at the Minneapolis VA Health Care System, the PGY-1 residency with a focus in mental health or the PGY-1 Rural Health/Ambulatory Care residency based at the Rice Lake, WI clinic (or all). If interested in two or more positions, please submit a separate application for each program.
   
   b. **Essay (PGY-1 program only)**: In 500 total words or less please describe the following: Describe the situation you learned most from in pharmacy school and how it helped you prepare for residency. (Examples: a class, a subject, a patient, a situation, a paper, an organization, a trip, a meeting or a project).

   c. **Example of Written Work (PGY-2 program only)**: One (1) example of written work from PGY-1 residency. Examples of written work may include a drug information response or a completed pharmacy consult (with patient identifiers removed).

2. References: We require applicants to submit 3 references. References should be submitted through the PHORCAS Standardized Reference form.

3. Submit the required application materials through the Pharmacy Online Residency Centralized Application Service (PhORCAS) on **January 5**. The PhORCAS website is available at http://www.ashp.org/phorcas or https://portal.phorcas.org/.
Overview of Pharmacy Services, cont.

Pharmacy services at the MVAHCS are available 24 hours a day, seven days a week. Pharmacists at MVAHCS work with patients, health care team members and trainees in all areas of the medical center in order to ensure safe, effective, and cost effective medication therapy.

Pharmacists ensure safe and efficient medication preparation, while distribution is carried out primarily by pharmacy technicians and automation.

Ambulatory Care Clinical Pharmacy

Ambulatory Care pharmacists work as part of the Patient Aligned Care Team (PACT), an interprofessional team that provides patient-driven, proactive, personalized, team-based care oriented toward wellness and disease prevention resulting in improvements in Veteran satisfaction, improved healthcare outcomes and costs. The PACT model is built on the well-known concept of the patient centered medical home staffed by high-functioning teams.

I. Independent Scope of Practice
   • Pharmacists have an independent scope of practice to initiate, modify, discontinue medications to assist with access to care and care coordination

II. Role of pharmacy in PACT team
   • Population health strategies to maximize patient outcomes for high risk patients (i.e. defined as 10 or more medications, patients taking high risk medications (e.g. insulin, opioids, digoxin, methotrexate, anticonvulsants), patients with adherence issues)
   • Serve as a vital component to PACT team – meetings to identify high risk patients and assist with systems redesign opportunities

III. Formulary management and prior authorization requests

IV. Monitoring
   • Monitoring for optimal patient response to therapy (pharmacologic & non-pharmacologic), including maximized outcomes and managing adverse events.

V. Drug information services

VI. Patient Education
   • Provision of patient education about disease states, medications, and the medication process (e.g. refills, medication costs, etc.)
   • Shared Medical Appointments: education and medication adjustment for nicotine replacement, diabetes, hypertension, and cholesterol medications

VII. Educational services
   • Journal clubs, continuing education lectures, and in-services
   • Precepting of students and residents
Over view of Pharmacy Services, cont.

Inpatient Clinical Pharmacy

The hospital pharmacy is open 24 hours a day, seven days a week. Inpatient services are provided through a decentralized service on day shifts and evening shifts. On nights, a centralized pharmacy service is provided. Inpatient distribution services include unit dose and IV admixture services.

I. Inpatient Medication Process
   • Review and verification of prescriptions entered through Computerized Prescriber Order Entry (CPOE)
   • Supply of unit dose and IV medications with a barcode for the barcode administration system (BCMA)
   • Clarification of unclear or incomplete orders
   • Assignment of administration time
   • Provision of appropriate administration warnings, incompatibility information, and alerts
   • Drug distribution, security and control
   • Clinical review of medications for allergies and interactions, interaction monitoring, and associated interventions
   • Adherence to drug policies including formulary management and therapeutic exchange
   • Documentation of admission medication histories
   • Provision of medication education and medication lists upon discharge
   • Response to drug inquiries from other health care professionals in regards to drug selection, administration, etc.

I. Therapeutic Drug Monitoring
   • Pharmacokinetic dosing and monitoring (e.g. vancomycin, gentamicin, heparin etc.)
   • Renal dosing of medications
   • Ordering and interpreting necessary labs as part of drug monitoring

II. Drug Distribution
   • Medications are dispensed via Pyxis®, a unit dose system.
   • In most areas of the hospital, medications are distributed with a barcode to be scanned as part of the barcode medication administration system (BCMA)

III. Sterile products
   • Sterile products, including chemotherapy, are prepared in a ready-to-administer form in compliance with all relevant USP 797 standards

IV. Narcotic control
   • Monitoring and assessment of controlled drug inventories
   • Distribution and delivery of controlled medications
   • Surveillance activities to deter diversion
Overview of Pharmacy Services, cont.

Inpatient Clinical Pharmacy, cont.

V. Extemporaneous and bulk compounding and prepackaging
VI. Drug Information Services
VII. Clinical programs
   - Development of a drug formularies
   - Medication use evaluations
   - Review and development of order sets
   - Technology assessment
   - Monitoring of medication errors and interventions
   - Adverse drug event surveillance
VIII. Educational services
   - Journal clubs, continuing education lectures, and in-services
   - Patient counseling
   - Precepting of students and residents
Overview of Pharmacy Services, cont.

Outpatient Clinical Pharmacy

Outpatient pharmacy is open from Monday through Friday 8:00 am to 9:00 pm. On weekends and holidays the outpatient pharmacy operates from 9:30 am to 4:30 pm. Veterans are able to call 1-855-560-1721 for a 24-hour refill line. The outpatient pharmacy works in conjunction with our Centralized Mail Outpatient Pharmacy (CMOP) to fill prescriptions in a safe and efficient manner.

I. Outpatient Medication Process
   - Review and verification of new prescriptions through a Computerized Prescriber Order Entry (CPOE) process
     - Approximately 2500 prescriptions are verified daily
   - Clarification of unclear or incomplete orders
   - Clinical review of medications for allergies and interactions
   - Adherence to drug policies including formulary management and therapeutic exchange
   - Renew appropriate maintenance prescriptions for patients for up to 90 days beyond an upcoming appointment per policy
   - Assess appropriateness of emergency contraception per policy and provide patient education
   - Provision of medications including new prescriptions and refills
   - Utilize automatic dispensing equipment (ScriptPro®) with barcoding technology to maximize safety and efficiency in dispensing processes

II. Distribution Services
   - Approximately 800-1200 prescriptions are filled locally each week day
   - A total of approximately 5500 prescriptions filled per day with local fills and CMOP combined

III. Patient Education
   - Education and counseling on medications and the medication process at time of dispensing
   - Classroom education provided to patients: DM Meter Education, Insulin Administration, 1 hour “Medications and Weight Control” class via MOVE (2 week intensive weight-loss program)

IV. Narcotic control
   - Monitoring and assessment of controlled drug inventories
   - Dispensing of controlled medications
   - Surveillance activities to deter diversion
   - Responsible for inventory, ordering and dispensing methadone for the Opioid Treatment Program

V. Educational services
   - Journal clubs, continuing education lectures, and in-services
   - Precepting of students and residents
## Program Overview
This post-graduate year one (PGY-1) Pharmacy Residency program is one of the first accredited residency programs with over 50 years of continuous accreditation by the American Society of Health-System Pharmacists (ASHP). This program provides a comprehensive year of education and experience with an emphasis on direct pharmaceutical care. Core rotations offer a variety of experiences working in both inpatient and ambulatory care settings.

### Benefits/Stipend
Residents are eligible for health and life insurance, vacation, and sick leave. There is free on-site parking; the medical center is located on the Hiawatha light rail line. The annual stipend for all PGY-1 programs is $43,668. Residents may pick up additional (non-residency) hours at a staff pharmacist wage to supplement the stipend.
Available Electives

- One of the following two longitudinal electives:
  - Geriatric Research, Education and Clinical Center (GRECC)
  - Interprofessional Education with Serious Mental Illness team
- Amb Care Specialty, Anticoagulation, Antimicrobial Stewardship, Informatics, Oncology, Pain Management, Inpatient Psychiatry, Serious Mental Illness - Outpatient, Traumatic Brain Injury/Rehab/Polytrauma, Women’s Health
- Advanced Rotations in Core Experiences: Ambulatory Care, ICU, Internal Medicine
PGY-1 - Ambulatory/Rural Health

Program Overview
This post-graduate year one (PGY-1) Pharmacy Residency program in a Rural Health/Ambulatory Care setting, accredited by the American Society of Health-System Pharmacists (ASHP), provides a comprehensive year of education and experience with an emphasis on direct pharmaceutical care. Core rotations offer a variety of experiences in ambulatory care settings at both the Minneapolis VA Medical Center and the Rice Lake Community Based Outpatient Clinic (CBOC) for 15 total weeks. Housing in Rice Lake, WI is supported as part of this program.

Purpose
PGY1 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training. About 41% of Veterans enrolled in the VA Health Care System live in rural or highly rural areas of the country. Veterans from geographically rural areas make up a disproportionate share of service members.

Residency Specifics & Duties
- Time split between Rice Lake, WI CBOC and Minneapolis VA Medical Center
- Emphasis on ambulatory care in a rural setting for primary and specialty care
- Chronic disease management
- Medication therapy management
- Patient counseling
- Diabetes education
- Telehealth education

Experience
- Rural Health Based Curriculum
- Diverse opportunities in patient care - Pain, Dialysis, Rheumatology
- Rotations in women’s health and home-based primary care
- In-services, journal club, CE presentations, Drug information service
- Precepting & mentoring pharmacy students
- Participation in the Pharmacy and Therapeutics Committee
- Plan, design, and perform one major residency project
- Multiple additional electives available (8 weeks)

Rice Lake, WI
Conveniently located 106 miles NE of MVAHCS. With a population of 8,441, it is the home to two colleges and a home for avid outdoor enthusiasts. Multiple recreation leagues including indoor volleyball and curling. Shopping mall, restaurants, and a fitness center are located ~0.5 miles from clinic. Over 60 km of skiing/mountain biking trails and more than 150 miles of ATV and snowmobile trails within 15 minutes of clinic. There are seven golf courses and abundant lake country ideal for fishing and water sports year-round.
PGY-2 - Psychiatric Pharmacy

Program Overview
The purpose of this PGY-2 psychiatric pharmacy residency program is to produce a psychiatric pharmacist who functions as a practice leader, and focuses on patient centered care through interdisciplinary team development, education, and medication therapy optimization. Although experiences are offered across a variety of care settings, graduates of the MVAHCS psychiatric care residency program will be highly qualified independent practitioners able to excel at providing adult ambulatory care psychiatric services.

ASHP Code: 63025
NMS Code: 690666

Experience

Required Rotations
- Outpatient Psychiatry
- Inpatient Psychiatry

Required Longitudinal Rotations
- Outpatient Psychiatry, Serious Mental Illness Team—Interprofessional Experience
- Outpatient Psychiatry, Geriatric Psychiatry
- Practice Management
- Research & Project Management
- Chief Resident

Elective Rotations
- Addiction Recovery Services
- Mental Health Intake & Emergency Department
- Inpatient Mental Health Traumatic Brain Injury & Stroke
- Pain Management
- Partial Psychiatric Hospitalization (PPH)
- PTSD outpatient clinic
- Transgender consults

Benefits/Stipend
The PGY-2 annual stipend is $47,307. The resident may pick up additional (non-residency) hours at a staff pharmacist wage to supplement the stipend. Residents are eligible for health and life insurance, vacation, and sick leave. There is free on-site parking; the medical center is located on the Hiawatha light rail line.
Mental Health Services
The MVAHCS is dedicated to providing comprehensive psychiatric care. Services span a variety of settings, including a 24-bed locked inpatient psychiatric unit, partial hospitalization, intensive outpatient programming, intensive case management services, programming for the homeless, and general outpatient services (locally and across all of the community-based outpatient clinics). Additionally, outpatient specialty teams exist for Serious Mental Illness, PTSD, Addictive Disorders, Geriatric Psychiatry, Mood Disorders, and Gender Dysmorphic Disorder.

Serious Mental Illness (SMI) Team
The SMI team is a multidisciplinary team that provides specialty mental health care to approximately 800 veterans with serious mental illness. The team also consults throughout the facility and offers services to veterans from other mental health teams. The SMI team’s approach is client-centered with an emphasis on recovery-based interventions, providing a full range of coordinated mental health services for veterans and their family members.

Trainees will be actively involved in the SMI team, having their own caseload of clients to follow. Faculty will encourage active participation by all trainees to facilitate regular dialogue between professions and incorporate multiple perspectives into care decisions, emphasizing the shared decision making process among clinicians as well as with veterans. Projects will require trainees to manage project scope, optimize collaboration, and facilitate organizational change. SMI team members are located in the same clinic area and readily have access to one another.
Pharmacy Service Policy and Procedure Manual

SUBJECT: Postgraduate Pharmacy Residency professional, family, sick, and extended absence and leave

1.0 PURPOSE: To outline departmental policy for Pharmacy Resident absence and leave.

2.0 POLICY: Absence and leave will be administered on a uniform and equitable basis consistent with Minneapolis VAHCS policy (Policy # HR-07D), appropriate laws, regulations, and related requirements. Pharmacy resident program shall be given consideration. Residents are encouraged to use their annual leave for rest and relaxation.

3.0 PROCEDURE:
- Electronic Time and Attendance (ETA) is the computer program for requesting and approving leave.
- Refer to the attachment for detailed information on leave, excused absence, maternity, paternity, adoption, Family and Medical Leave Act, Family Friendly Leave Act and the Voluntary Leave Transfer Program. Actions that violate this policy may be grounds for disciplinary action up to and including removal from VA Residency program.

4.0 RESPONSIBILITIES:
A. Residents are responsible for observing leave and excused absence policies and regulations which affect them personally, including:
1. Being at their post of duty during official duty hours unless on approved leave or excused absence without charge to leave.
2. Observing the time and attendance policies and procedures and using leave for the purpose for which it is intended.
3. Requesting prior approval for annual leave and prior approval for sick leave for a medical, dental or optical examination or treatment when possible
   a. When advanced leave is requested, the request must be submitted to the Residency Program Director. If possible, a verbal and electronic mail message is requested.
   b. If approved by Program Director, the electronic mail is forwarded to the timekeeper and Chief, Pharmacy Services for official approval.
   c. The request will then be entered into the ETA option.
   d. Leave is charged in 15 minute increments.
4. Making timely reports of absences not previously approved. Reporting, or having a responsible person report, incapacitation for duty as early as practicable. Generally this will be at the beginning of the tour of duty but not later than two hours thereafter, unless mitigating circumstances exist. If Occupational Health or your personal health provider determines that you are incapacitated for work, you must communicate this with the Residency Program Director by providing the medical certification (if requested) and request leave to cover the period of incapacitation.
   a. To be called in to the Program Director who will then inform the timekeeper via email. If the Program Director is not available a Pharmacy supervisor will be contacted.
   b. Requests through ETA must be made upon return to duty.
5. Informing Program Director if reason for incapacitation for duty is a contagious illness so the health of coworkers can be monitored; and providing medical clearance for return to duty.
6. Submitting accurate statements about absences, applications for and use of sick leave; transferred leave; family and medical leave; and furnishing medical certificates when required, e.g., when absence is for more than three consecutive workdays and when an employee is on medical certification. Completing requests through ETA, or if needed, on an OPM-71 form.
7. Having accrued sufficient leave to cover approved requests when they occur.

B. Supervisors (Residency Program Director) are responsible for administering the absence and leave policies and regulations on a uniform and equitable basis, to the extent delegated in the attachment. This includes:
   1. That pharmacy residents are trained in proper use of leave, kept informed on leave matters and of the name or title of the leave-approving supervisor and time-keeper.
      a. When pre-planned leave is requested, the request must be submitted to the Residency Program Director. If possible, a verbal and electronic mail message is requested. The preceptor of the current rotation should be informed by the pharmacy resident of days the pharmacy resident will be on leave.
      b. If approved, the electronic mail is forwarded to the time-keeper and Chief Pharmacy Services for official approval.
   2. Acting promptly on requests for leave and determining the necessity for or acceptability of sick leave medical certificates.
   3. Maintaining control over attendance, leave and excused absence. Determining whether an employee's absence from regular duties constitutes official duty, approved leave, excused absence without charge to leave, or absence without leave, and ensuring that the unit timekeeper is promptly notified of all leave requests.

C. Human Resources Management is responsible for the general administration of the leave program. This includes interpreting leave policies and regulations for operating officials, and providing for employee orientation on leave provisions and supervisory training in leave administration.

E. Timekeepers (Pharmacy Program Assistant(s)) are responsible for:
   1. Posting attendance and leave information daily.
   2. Prompt attention to and corrections of errors on time cards.
   3. Obtaining employees' certification of leave and absences or having an OPM 71 on file.
   4. Ensuring completeness prior to certification by leave approval officials.
   5. Posting, or having employees post, necessary remarks for FFLA, FMLA, and use of leave in lieu of another leave category (e.g., AL or SL), OWCP, or AA. Posting correct codes for AWOL, jury duty, suspension, etc.
   6. Sending the certified time cards to Payroll by 9:00 AM on the second Friday morning of the pay period.
   7. Notifying HRM as soon as it becomes known that an employee has been or will be in a non-pay status for seven consecutive days or more.
   8. Maintaining a record of leave for employees with marginal leave balances (e.g., balance of 80 hours or less) in order to prevent overdrawn leave.

An employee may be given authorized absence without charge to leave when:
1) The activity is considered to be of substantial benefit to VA in accomplishing its general mission or one of its specific functions, or
2) The activity will clearly enhance an employee’s ability to perform the duties of the position presently occupied or may be expected to prospectively occupy, or
3) The basis for excusing the employee is fairly consistent with prevailing practices of other Federal establishments in the area concerning the same or similar activities.

**ABSENCE WITHOUT LEAVE (AWOL)**
Absence without leave (AWOL) is an unauthorized absence from duty including leave that is not approved until required documentation is submitted, or for which a leave request has been denied.
The employee receives no pay for such absence. The leave-approving official should document the reason/s for charging absence to AWOL at the time the decision is made. The employee should be informed about the charge to AWOL and provided copies of any documentation. Neither the denial of leave nor the reporting of AWOL is punitive. It may be the basis of counseling and may result in disciplinary action. It is not, in itself, a disciplinary action.

If AWOL is later excused because the circumstances surrounding the absence are such that the absence would have been approved, the charge should be changed to authorized absence without charge to leave if appropriate, or to sick or annual leave, or LWOP as appropriate. Contact HRM concerning any issues and further details regarding this program.

Pharmacy Service Policy and Procedure Manual

SUBJECT: Discipline and/or Dismissal of a Pharmacy Resident from the Pharmacy Residency Program at the Minneapolis VA Health Care System

1. PURPOSE: The purpose of this policy is to establish guidelines and procedures for correcting unacceptable behavior and/or unsatisfactory performance in the workplace or while conducting official government business (i.e. while on travel). This policy also sets forth procedures for dismissal from the program.

2. POLICY: The Chief, Pharmacy Service, Resident Program Director, and Residency Preceptors (Residency Advisory Committee) will review reports of unacceptable behavior or unsatisfactory performance. Based on the results of this official review and severity of infraction, a pharmacy resident may be provided verbal counseling with documentation, written counseling, or be dismissed from the program.

3. PROCEDURE:

   A. Pharmacy Residents
      
      a. Pharmacy residents are responsible for understanding and following all rules of conduct of the Pharmacy Residency Program that are outlined in this policy while in the workplace or conducting official government business (i.e. while on travel).
      b. Pharmacy residents must adhere to rules and policies of the Veteran Affairs Administration and the Minneapolis VA Health Care System.
      c. Pharmacy residents are expected to conduct themselves in a professional manner at all times; demonstrate a high level of integrity and honesty in dealing with colleagues, supervisors, patients, and other staff; and project an image of respectability and trustworthiness.
      d. In the event of disciplinary action, the resident has the right to address the Residency Advisory Committee either in person or in writing.

   B. Pharmacy Residency Preceptors:
      
      a. Inform pharmacy resident of behavior or conduct that is considered inappropriate and/or does not meet departmental standards. Preceptors are to provide corrective counseling with the goal of resident improvement.
      b. Inform pharmacy resident of performance that is unacceptable and provide corrective counseling with goal of resident improvement.
      c. Inform Residency Program Director when pharmacy resident behavior/professional conduct has been inappropriate and/or does not meet departmental standards.
      d. Inform the Residency Program Director when pharmacy resident performance is determined to be unacceptable to the standards of a pharmacy resident.
C. Pharmacy Residency Program Director:
   a. Inform the pharmacy resident of the contents of this policy and potential implications.
   b. If issues arise, inform pharmacy resident of any perceived unacceptable behavior/professional conduct or unacceptable performance.
   c. Based on the severity of unacceptable behavior, counsel and allow the pharmacy resident to correct such behavior and bring performance to an acceptable level.
   d. Inform the pharmacy resident when performance is lacking and program managers and/or preceptors feel this may contribute to patient risk.
   e. Respond to and document the seriousness of the pharmacy resident's conduct or performance when the pharmacy resident fails to respond to corrective counseling.
   f. Inform the Chief of Pharmacy for informational purposes.

D. Residency Advisory Committee:
   a. Should the pharmacy resident fail to correct inappropriate behavior or conduct or improve performance after receiving counseling from the Residency Program Director and preceptors, the Residency Program Director then forwards the ongoing concern to the Residency Advisory Committee.
      i. The overall emphasis and goal of all disciplinary action is the correction and/or improvement of resident behavior or performance.
      ii. If an infraction is considered egregious or severe, the Residency Program Director will forward this to the Residency Advisory Committee for immediate consideration for action without allowing the resident time to improve.
   b. The Residency Advisory Committee consists of the Director of Pharmacy, Residency Program Managers and representative group of Residency Preceptors. For residency disciplinary proceedings, the inpatient and outpatient pharmacy supervisors and other relevant staff will be invited.
   c. The Residency Advisory Committee will meet to review concerns and investigate the matter further. The Residency Advisory Committee will recommend appropriate actions to the Residency Program Director and Chief of Pharmacy. Appropriate action based on violation may include any of the following with documentation in pharmacy residents file:
      i. additional verbal counseling, remedial advice, coursework, or other training for resident improvement.
      ii. written warning, counseling with remedial advice, coursework, or other training to improve
      iii. adjustment of resident schedule (re-training, repeat learning experience)
      iv. dismissal from the program.
   d. If action merits dismissal from the program, Human Resources Service will be consulted and involved.

E. Types of violations: Violations may be classified as minor, major or critical and are defined below. Disciplinary measures for unacceptable behavior, conduct or performance that is not listed below will be determined by the Residency Program Director and Residency Advisory Committee.

   a. Minor Violations: – results in a verbal counseling for the first offense with documentation; the following are specific examples:
      i. Dishonest behavior, deliberately lying.
      ii. One episode of failure or refusal to perform assigned duties.
iii. Engaging in activity detrimental to the operations of the medical center.
iv. Rude or discourteous behavior.
v. Unauthorized or inappropriate use of telephone, computer, e-mail, or other office/business equipment.
vi. Failure to call in an absence or tardiness according to departmental procedures.
vii. Unauthorized absence from an assigned work area (includes repetitive tardiness).
viii. Negligent use of property resulting in damage or loss.
ix. Failure to follow proper standards relating to personal hygiene and grooming.
x. Presence in an unauthorized area.
xii. Inability to make satisfactory progress in achieving required goals and objectives associated with residency.
xii. A professional license must be provided as soon as possible to pharmacy and Human Resources. VetPro requirements (proof of licensure must be met). Failure to produce professional license in a timely manner; prior to July 31st of resident year.

d. Major Violations - results in a written counseling for the first offense and potentially early dismissal for repeated violations; the following are specific examples:

i. Repetitive failure or refusal to perform assigned duties or engaging in any activity detrimental to the operations of the medical center.
ii. Use of profane or abusive language.
iii. Engaging in any behaviors or activities that are disruptive to the operations of the medical center and/or creates a work environment that is disruptive.
iv. Violation of posted safety, security, health, or fire prevention rules, or otherwise causing a safety hazard.
v. Sleeping while on duty, or hiding with the obvious intent of sleeping while on duty.
vi. Harassment/discrimination including advances, verbal, sexual, and/or physical conduct, with regard to all applicable laws covering the medical center's EEO policies, when submission or rejection of such harassment is used as a basis for employment decisions, or where harassment has the purpose or effect of interfering with an employee's work performance or creating an intimidating, hostile or offensive work environment.
vii. Reporting to work while under the influence of any intoxicant, hallucinogenic, or narcotic.
viii. Unauthorized use of property.
ix. Smoking in non-designated areas.
x. Continued inability to make satisfactory progress in achieving required goals and objectives (associated with residency) after additional, remedial, and focused training in the designated areas.

c. Critical – can warrant immediate early dismissal on first offense per decision of Residency Program Director, Residency Advisory Committee or Chief of Pharmacy. The following are specific examples of violations that would be considered as critical:

i. Deliberate inattention to patient care, or engaging in any conduct detrimental to patient care (including patient abuse).
ii. Fighting, issuing threats or verbal abuse, or other disorderly conduct on the premises, or while engaged in official government business.
iii. Violation of security access — patient information policy or deliberately releasing confidential information covering medical center business, patient information, employee information, etc.
iv. Violation of the medical center policy by falsifying information, records or documents.
v. Unauthorized possession of a firearm, explosives, or other weapon on the premises.
vi. Theft of property or willfully causing damage to, waste of, or loss of property.
vii. Failure to submit to an alcohol/drug examination.
viii. Absence from work for three (3) consecutive scheduled days without notifying appropriate supervisor during the absence for illness or accident preventing the employee from working (as evidenced by written certification of a medical doctor if requested by management), or other satisfactory reason for such absence, as determined by appropriate management, is job abandonment.
ix. Violating ethics or laws of pharmacy practice
x. Violations of patient boundaries, including violations of boundaries with patient family members. This includes but is not limited to acceptance of gifts, romantic or sexual relationships, business transactions and associations, accessing medical records of family or friends and failure to report suspected boundary issues.
xii. Unauthorized possession or use of an intoxicant, hallucinogenic, or narcotic while on the premises.
xiii. Persistent failure to make satisfactory progress in achieving required goals and objectives (associated with residency) after additional, remedial, and focused training in the designated areas.
xiii. Performance that caused significant harm to a patient or a "near miss" situation that can not risk being repeated.
ix. Failure to gain professional licensure by September 31st of resident year is grounds for dismissal from the program.

4. RECESSION DATE: March 2018

5. REFERENCES: Policy RI-09C

6. FOLLOW-UP RESPONSIBILITY: Clinical Pharmacy Program Manager/Residency Program Director

APPROVED:

[Signature]
Lawrence Patnaude, PharmD
Chief, Pharmacy Service

DATE
3/23/15
Requirements to Successfully Complete Minneapolis Veteran Affairs HCS PGY-1 Residency and earn PGY-1 Certificate.

The PGY1 Pharmacy Resident is expected to “Achieve” attainment of 80% of required Residency objectives. Any objectives not fully achieved must meet the “Satisfactory Progress” criteria. The Residency Advisory Committee (RAC) in conjunction with the Residency Program Director (RPD) and Chief, Pharmacy Service are responsible for ascertaining that all MVAHCS PGY-1 Residency graduates meet these requirements.

If performance does not meet these expectations, the resident will be given ample opportunity to improve. Many goals are measured throughout the year allowing for repetition to strive to achieve the goal. The expectation is that residents will master some goals early in the year, and make satisfactory progress in the other goals (ex. Outcome R2 patient care related goals require repetition to develop knowledge, skills and abilities to achieve) throughout the year. A key to success is the gradual achievement in reaching these goals and continued progress in others. If a resident is having difficulty achieving a goal, required rotation(s) may be extended or additional time or rotations may be set up to concentrate on goal attainment. If the resident does not reach the expected level of competency with all the reasonable provisions discussed, the resident will not receive a certificate of completion from the residency program. If there are severe deficiencies or if no improvement occurs with feedback, the resident may be terminated prior to the end of the one year period in accordance with MVAHCS Pharmacy Policy M-36.

Overall Requirements to Successfully Complete Residency and Receive Residency Certificate:

- Meet all MVAHCS PGY1 Residency Requirements with a goal of achieving 80% of required objectives.
- A resident may receive a certificate of completion with >20% of objectives in the satisfactory progress range as long as the consensus of RAC Committee and preceptors is that the resident and RAC has developed a stepwise plan to assist the resident in achieving these goals in their next career endeavors.
  - In recognition that achievement of 100% of the objectives can be difficult for even a seasoned clinician (if evaluated in a candid sense), it will be judgment of the RAC and RPD that continued progress to the level expected of a resident graduate can occur as the resident continues to gain experience in areas marked as Satisfactory Progress.
- Satisfactory completion of all rotations. If a rotation is not satisfactorily completed, appropriate remedial work must be completed as determined by the preceptors and RPD.
- Completion of and presentation of a major pharmacy project to a designated group [TBD].
- Completion of a 1st draft and final manuscript suitable for submission to a biomedical journal of the major project.
- Completion and presentation of a MUE or DUE to a multidisciplinary group (ex. P&T) or pharmacy staff meeting.
- Completion of assignments and projects as defined by the preceptors and RPD.
- Compliance with all institutional and departmental policies as well as expectations set forth in the MVAHCS Pharmacy Residency Program Manual.
- Attendance: The residency is a full-time temporary appointment of 1 year in duration. The resident is expected to be onsite for a minimum of 40 hours per week and to perform activities related to the residency as necessary to meet the goals and objectives of the program. Additional time is expected to complete assignments and projects in a timely manner. When the resident will not be onsite, the RPD and preceptor must approve the time off and procedures for leave must be followed (please refer to MVAHCS Pharmacy Policy M-18)
Profiles of Current Residents

PGY-1 General Pharmacy Practice Residents

**Keri Enyi**, Pharm.D., completed her Doctor of Pharmacy degree at the University of Minnesota College of Pharmacy in Duluth. Prior to pharmacy school, she worked in a clinical lab at Mayo Clinic for 3 years after receiving her Bachelor of Arts degree in chemistry from Minnesota State University Moorhead. During her time as a student pharmacist, Keri served as the Minnesota Pharmacy Student Alliance (MPSA) President and was also involved with Phi Lambda Sigma-Pharmacy Leadership Society and Rho Chi Honor Society. Her professional interests include cardiology, infectious disease, transitions of care, and ambulatory care. In her free time, Keri enjoys spending time with family and friends, playing volleyball, and trying new restaurants.

PGY-1 Project: Evaluation of new prescriptions and documented counseling for potentially teratogenic medications prescribed to women of childbearing age in the outpatient setting.

**Emilie Hudalla**, Pharm.D., completed her Doctor of Pharmacy degree at the University of Minnesota – Twin Cities after obtaining a Bachelor of Science degree in microbiology from the U of M. During her time as a pharmacy student, Emilie worked as a pharmacy intern at the University of Minnesota Medical Center, served on the administrative board of the student-run Phillips Neighborhood Clinic, and was involved with Rho Chi Honor Society, Kappa Psi Pharmaceutical fraternity, and MSHP. Her professional interests include geriatrics, internal medicine, transitions of care, and ambulatory care. Outside of work, Emilie enjoys biking, camping, baking, boating, and spending time with family and friends.

PGY-1 Project: Analysis of Discharge Prescriptions for Proton Pump Inhibitors at the Minneapolis VA Health Care System.

**Jason Schneider**, Pharm.D., completed his Doctor of Pharmacy degree at South Dakota State University College of Pharmacy. Prior to pharmacy school, he received a Bachelor of Science degree in Pharmaceutical Sciences at SDSU. As a pharmacy student, Jason was involved in various organizations such as Rho Chi Honor Society and collegiate athletics, while he also worked as a pharmacy Veteran Affairs Learning Opportunity Resident (VALOR) at the Sioux Falls VA Health Care System. His professional interests include cardiology, critical care, and ambulatory care. Outside of the pharmacy world, Jason enjoys spending time with his family and friends attending concerts, sporting events, and visiting new places. He also likes playing golf in his free time or any other type of activity that is outdoors.

PGY-1 Project: Use of Beta-Blockers for Treatment of Hypertension at the Minneapolis VA Health Care System.
Profiles of Current Residents

PGY-1 Rural Practice Resident
Bill Bruneau, Pharm.D. completed his Doctor of Pharmacy degree at the University of Saint Joseph School of Pharmacy in Hartford, CT. Prior to pharmacy school, Bill received his Bachelor of Science degree in Political Science at the University of Connecticut. Throughout pharmacy school Bill was involved in the Rho Chi Society, ASHP, and APhA. Bill worked during his schooling as an intern at CVS as well as a long-term care hospital. His professional interests include safe usage of opioids, patient education, and naloxone distribution. Bill loves dirt biking, hiking, staying active, and exploring the unfamiliar new state of Minnesota.

PGY-1 Project: Evaluating PDMP and UDT inquiry rates among chronic opioid patients and their providers at the Minneapolis VA Health Care System

PGY-1 Mental Health Resident
Kevin Rauwerdink, Pharm.D. completed his Doctor of Pharmacy degree at North Dakota State University. As a student pharmacist, Kevin was involved in Rho Chi, NDSHP, CPNP-student chapter, Phi Lamda Sigma, and Kappa Psi. Additionally, he worked as an advanced pharmacy intern at Sanford Medical Center Fargo for 4 years. Professional areas of interest include neurology, psychiatry, medication safety, and genomics. Outside of pharmacy, Kevin enjoys video games, restaurants, puppies, and lounging by the pool.

PGY-1 Project: Assessing Follow-Up of Alcohol Use Disorder Pharmacotherapy Initiated During Acute Hospitalization in a Veteran Population

PGY-2 Psychiatric Pharmacy Practice Resident
Martin Bloch, Pharm.D. completed the Doctor of Pharmacy program at the University of Minnesota College of Pharmacy. As a student pharmacist, Martin worked as Historian of the Rho Chi Society and provided a variety of pharmacy tutoring services. Martin completed his PGY-1 Pharmacy Residency at the Minneapolis VA, where he had previously worked as a pharmacy intern. His professional interests include mental health, pharmacogenomics, and education. Martin enjoys cooking new foods, traveling, and playing complex nerdy board games.

PGY-2 Project: Survey of Provider Perceptions of Opioid Use Disorder and Buprenorphine/Naloxone Treatment
Profiles of Selected Faculty

Program Directors

Jennifer A. Bolduc, Pharm. D., BCACP serves as the Ambulatory Care Clinical Pharmacy Program Manager, the PGY-1 Residency Program Director and the Education Program Manager at the Department of Minneapolis VA Health Care System (MVAHCS). Her role includes guiding the expansion of ambulatory care clinical pharmacy services and educational opportunities for pharmacy practice learners and pharmacy staff. She received her Doctor of Pharmacy degree in 2006 from the University of Minnesota College of Pharmacy. She then completed a PGY-1 Pharmacy Residency from the MVAHCS. She remained with the MVAHCS to develop her practice as the Ambulatory Care Clinical Pharmacy Specialist with a primary focus in Women’s Health, Tobacco Cessation and Interprofessional Education. There she served as the MVAHCS pharmacy champion for the VA’s patient centered medical home model called, Patient Aligned Care Team (PACT). Her role as PACT pharmacy champion spotlighted the potential for advanced pharmaceutical care services and allowed for the expansion of collaborative practice agreements at the MVAHCS. Her vision includes maximizing ambulatory care medication therapy services to ensure optimized medication use, striving to optimize the license of all pharmacy employees and ensuring all pharmacy trainees and pharmacy technicians are activated to their fullest potential.

Kara Wong, Pharm. D., BCPP is the inpatient mental health clinical pharmacist and the PGY-2 psychiatric pharmacy program coordinator at the Minneapolis Veterans Affairs Health Care System. Dr. Wong is actively involved in the College of Psychiatric & Neurologic Pharmacists, and has served on the Business Development Committee (2012-2013), the Publications and Online Products Committee (2013-2014), and the Psychiatric Pharmacotherapy Review Course Medication Table Editorial Board (Present). Prior to accepting her current position, she was the inpatient mental health clinical pharmacist on the mood disorders/ general adult psychiatric unit at Western Psychiatric Institute and Clinic of the University of Pittsburgh Medical Center, and Adjunct Instructor in Pharmacy and Therapeutics at the University of Pittsburgh School of Pharmacy. She received her Doctor of Pharmacy degree from the University of Wisconsin-Madison School of Pharmacy, and completed her PGY-1 pharmacy practice residency at the Veterans Affairs Puget Sound Health Care System in Seattle, WA and her PGY-2 psychiatric pharmacy at Center for Behavioral Medicine in Kansas City, MO.
Preceptors

Melissa Atwood, Pharm.D., BCPS, CDE, BCACP is an Ambulatory Care Pharmacist who serves as the Minneapolis Site Coordinator for the Rural Health Ambulatory Care PGY1 program, coordinator for the longitudinal case management rotation and preceptor in the ambulatory care rotation. She is a Clinical Assistant Professor for the University of Minnesota College of Pharmacy. She received her Pharm. D. degree from the University of Minnesota and completed a residency with the University of Minnesota and Ridgeview Medical center. In addition to precepting residents, she also precepts APPE students. Her interest/practice areas include diabetes, rheumatology, nephrology and primary care. Her research interests are in new practice models and interprofessional care.

Missy Bell, Pharm.D., BCPS, BCACP is an anticoagulation clinical pharmacy specialist and a core preceptor for the rural health PGY-1 residency and the preceptor for the elective PGY-1 anticoagulation management rotation. She received her Doctor of Pharmacy Degree in 2007 from Drake University and completed a PGY-1 residency with the University of Minnesota Ambulatory Care Residency program with her practice site being at the St. Cloud VA Health Care System. Her clinical interests include primary care chronic disease management with a special interest in anticoagulation. Her personal interests include spending time with her family, cross country skiing, running and reading.

Jeremy T. Boehme, Pharm.D., BCACP is a clinical pharmacy specialist and one of the site coordinators for the Rice Lake Rural Health/Ambulatory care track PGY-1 program. Jeremy graduated from Idaho State University College of Pharmacy, and worked in a community based retail clinic in rural Idaho. He completed his ambulatory care focused PGY-1 residency at the Lincoln, NE VA clinic, and during his residency his research focused on immunization effectiveness for healthcare workers. Jeremy is an active member of the American Society of Health-System Pharmacists (ASHP), and he is interested in academics, teaching, and student and resident training. During his residency he completed a teaching certificate, and also taught in the academic skills lab at Creighton University. His continued interests include diabetes, immunization, ambulatory care medicine, and integrating clinical pharmacy into the pharmacy patient-aligned care team (PACT).

Amanda Boese, Pharm.D., BCPS is an Inpatient Clinical Pharmacist and a preceptor for the internal medicine rotation. She graduated from North Dakota State University in 2012, then completed a general PGY-1 residency within the Mayo Clinic Health System. Upon completion of residency, she accepted a position as a clinical rotating pharmacist at the Minneapolis VA. She serves on the Residency Advisory Committee and contributes to several subcommittees. In her free time, she enjoys home improvement, trying new foods, and spoiling her dog.
Frequently Asked Questions

Lindsey Chezik, Pharm.D., BCACP is an Ambulatory Care Pharmacist for three primary care Patient Aligned Care Teams (PACT) at the Minneapolis VA Medical Center. She received her Pharm. D. from the University of Minnesota Duluth and completed a Pharmacy Practice Residency at the Minneapolis VA. She serves as a preceptor for the ambulatory care rotations for 4th year APPE students and for PGY1 Pharmacy Residents. She is also one of the primary providers involved in a tobacco cessation shared medical appointment at the Minneapolis VA. Her clinical practice interests include diabetes, gout, pain management, medication therapy management, and an interdisciplinary approach to primary care.

Vinh Dao, Pharm.D., BCPS is the Minneapolis VA Pain Pharmacist. He received his Pharm. D. from the University of Minnesota-Twin Cities. After starting as a rotational staff pharmacist at the Minneapolis VA, he moved into his current position, where he has practiced since 2009. He has been a faculty teacher with the Twin Cities Health Professionals Education Consortium since 2010. His hobbies include sports, watching movies, and saltwater aquariums.

Lisa Drogemuller, RPh. BCPP is the outpatient mental health clinical pharmacist specialist, and the preceptor for longitudinal and block rotations centered on SMI team for both PGY-2 psychiatric pharmacy resident and PGY-1 pharmacy residents. She graduated from the University of Minnesota School of Pharmacy in 1988 and has spent her entire professional career at Minneapolis Veterans Affairs Health Care System. She began as a staff pharmacist, and was given opportunity to initiate and develop clinical pharmacy services in mental health at this facility which evolved into current role specialized in outpatient psychiatry from 1997 to the present. She initially became board certified in psychiatry in 1998 and has maintained certification to date. She has collaborative practice agreements with several psychiatrists and manages clinical care for over 200 psychiatric patients. She was involved in grant writing proposal for current PGY-2 and PGY-1 psychiatric pharmacy residencies, and has a passion for patient-centered care provided in the interprofessional model that is the core of her training rotations.

Eric Geurkink, Pharm.D., BCPS, BCPP, MBA is an Ambulatory Care Clinical Pharmacy Specialist. He graduated from the University of Wisconsin School of Pharmacy in 1999, and then completed a post-graduate year one residency with Medicine Shoppe and the University of Wisconsin. From 2000 to 2001 he was Managing Pharmacist of ThedaCare Pharmacy in Shawano, Wisconsin. He came to the Minneapolis VAMC as a staff pharmacist in June 2001. At the Minneapolis VA he has held various positions, including inpatient clinical pharmacist, antimicrobial computer decision support pharmacist, spinal cord injury unit inpatient pharmacist, and Associate Chief of Pharmacy. He received his MBA from the University of Minnesota in 2010. He is board certified in pharmacotherapy and psychiatric pharmacy. His chief interests are pharmacy practice model advancement, maximizing use of technicians and automation, documenting value of clinical
Frequently Asked Questions

pharmacist services, and integrating student and resident pharmacists into pharmacy practice.

Susan Jacobson, RPh. is an inpatient pharmacist. She coordinates centralized inpatient pharmacy training and precepting of residents and students. She graduated from South Dakota State University. She started as a rotational pharmacist as the Minneapolis VA, then became an Inpatient Clinical Specialist. She has also worked in the Community Living Center, warfarin clinic, and as the Inpatient Pharmacy Supervisor. She has been an active member in the Minneapolis VA P&T Committee, VISN 23 P&T Committee, Pharmacy Advisory Board, and National VA Council Hybrid Title 38 Collaboration Team. She enjoys teaching and has interests in patient safety and IV automation. Her personal interests include gardening, horseback riding, skiing, and traveling.

Elzie ‘EJ’ Jones, Pharm.D. is an Ambulatory Care Clinical Pharmacy Specialist and Primary Care Pain Management Pharmacist at the MVAHCS. He obtained his Pharm. D. from North Dakota State University and completed a PGY1 Residency at the VA Medical Center in Denver, CO. His previous appointments include being an Ambulatory Care Clinical Specialist at the Puget Sound VA Medical Center and being an Ambulatory Care and Anticoagulation Specialist at the Portland, OR VA Medical Center. His clinical interests are Ambulatory Care and Pain Management. He is the winner of the 2013 VISN 23 Network Star Award and his personal interests include family, hiking, biking, cooking, sports, and live music.

Tessa Kemp, Pharm.D. is an Specialty Care Pharmacist who serves as a preceptor for the PGY-1 longitudinal case management rotation and for the PGY-1 ambulatory care rotation. She received her Pharm. D. degree from the University of Minnesota and completed a PGY-1 residency with the Minneapolis VA Health Care System with a focus in geriatrics. In addition to precepting residents, she precepts APPE students and assists in coordinating student activities. Her interest/practice areas include mental health, diabetes, insomnia, cardiology, hepatitis C and primary care. Her research interests are in new practice models, interprofessional care, and transitions in care.

Stephanie Loegering, Pharm.D. is the preceptor for the Geriatrics experience at the Minneapolis VA Medical Center. She graduated from the University of Minnesota, Twin Cities in 2004 and completed a yearlong residency at the Minneapolis VA focused on Geriatrics. Since that time, she has worked as a staff pharmacist and more currently as a clinical pharmacist on the Community Living Center and in the Geriatric Research Education Clinical Center (GRECC). She has obtained her certification in Geriatrics and continues to provide clinical rotations to students and residents.

Rebecca Marrafa, Pharm.D., BCPS is an Ambulatory Care Clinical Pharmacist in the Academic PACT (Patient Aligned Care Team) at the Minneapolis VA Medical
Frequently Asked Questions

Center. She received her Pharm. D. degree from the University of Minnesota and completed a Pharmacy Practice Residency at the Minneapolis VA. Following completion of her residency, she worked in ambulatory care at Memorial Hermann – Texas Medical Center in Houston, specializing in anticoagulation management. Now back at the Minneapolis VA, she works closely with medical resident physicians within the Academic PACT, and precepts pharmacy students and PGY-1 residents in longitudinal case management and ambulatory care rotations. Her clinical practice interests include diabetes management, tobacco cessation, and an interdisciplinary approach to primary care.

**Todd Naidl**, Pharm.D., BCPS is an Ambulatory Care Clinical Pharmacist working in one of our primary care clinics with three Patient Aligned Care Teams (PACT). He received his Pharm. D. from the University of Minnesota-Twin Cities. After working several years as a rotational staff pharmacist at the Minneapolis VA, he moved into his current position, where he has practiced since 2005. He has been a faculty teacher with the Twin Cities Health Professionals Education Consortium since 2006. In 2009, he was awarded the Civil Servant of the Year award. His clinical practice interests include pain, comprehensive medication management, tobacco cessation, and holistic and integrative medicine. He enjoys spending time outdoors with his friends and family.

**Megan Nelson**, Pharm.D., BCPS is an Oncology Clinical Pharmacist and preceptor for PGY-1 oncology elective. She received her Pharm. D. from the University of Minnesota Duluth College of Pharmacy and completed a PGY-1 residency at the Minneapolis VA. She works closely with members of the oncology team to provide safe and comprehensive care for patients with hematologic and oncologic disorders. Her personal interests include traveling, cooking, playing softball, and being outdoors.

**Kytara Neustadter**, Pharm.D. is a rotational inpatient staff pharmacist, and is the preceptor for the inpatient pharmacy staffing experience for the PGY-1 residency program. She graduated from Purdue University in West Lafayette, IN in 2014 and completed a PGY-1 pharmacy practice residency at NorthShore University HealthSystem following graduation before joining the Minneapolis VA Pharmacy team in 2016. Her hobbies outside of work include cooking and traveling.

**Lawrence Patnaude**, Pharm.D., is currently serving as the Chief of Pharmacy Services for the Minneapolis VA Health Care System (MVAHCS) and co-preceptor of the administration rotation. He received his Doctor of Pharmacy degree in 2001 from North Dakota State University. Larry has served in many different roles in pharmacy practice. These include positions as a Clinical Pharmacist, Associate Chief Pharmacist, Chief Pharmacist, and Chief Executive Officer in the Indian Health Service as well as Chief of Pharmacy Services at the Fargo VA Health Care System. He has also served as an Assistant Professor of Practice and Director of
Frequently Asked Questions

Experiential Outreach and Assessment in the School of Pharmacy at North Dakota State University.

Lauren Radermacher, Pharm.D. is the Antimicrobial Stewardship Pharmacy Program Manager and the preceptor for the elective PGY1 Antimicrobial Stewardship/Inpatient ID Rotation at the MVAHCS. Lauren graduated from Purdue University College of Pharmacy in 2012 and completed a PGY1 residency at Indiana University Health. She went on to complete a PGY2 residency in Infectious Diseases at IU Health as the chief pharmacy resident. She worked as a rotational pharmacist for two years prior to developing the antimicrobial stewardship program at the MVAHCS. Lauren’s clinical interests include pharmacokinetics and pharmacodynamics, antimicrobial resistance, and HIV management. Outside of work, she enjoys cooking, crafting, and anything outdoors!

Anna Sciegienka, Pharm.D., BCPS is a rotational staff pharmacist and preceptor for the outpatient pharmacy staffing experience of the PGY-1 residency program. She graduated from the University of Iowa in 2013 and completed a PGY-1 pharmacy practice residency at the Iowa City VA. After residency, she moved to the Twin Cities and joined the Minneapolis VA Pharmacy family in 2014. During her time at the Minneapolis VA, she has involved herself in many “Shenanigans” – a nickname lovingly given to her by her coworkers – including party planning for the department. In her free time, Anna can be found playing with, training, or cleaning up after her puppy, Piper.

Kellianne Tang, Pharm.D., BCPS is an Inpatient Clinical Pharmacist and a preceptor for the internal medicine rotation. She graduated in 2008 from the University of Georgia and went on to complete a pharmacy practice residency at the Medical University of South Carolina. Following residency, she stayed at MUSC and worked on the inpatient hematology/oncology team before coming to the Minneapolis VA in 2013. Her personal interests include avoiding cold weather and watching Netflix with her awesome dog, Maddie.

Elizabeth Welch, Pharm.D., BCACP is the clinical pharmacy specialist at the Maplewood VA Community Based Outpatient Clinic in Maplewood, MN. She received her Pharm.D. degree from the University of Minnesota Twin Cities and completed a PGY-1 residency at the Minneapolis VA Health Care System following graduation. After rotating as a clinical staff pharmacist for 3 years, Elizabeth made the transition to the Maplewood VA CBOC as their first CPS. Her clinical interests include medication therapy management and integration of the entire PACT team to help care for veterans. Outside of work Elizabeth enjoys staying active, scrapbooking, cooking and trying new restaurants.

Carrie Wenner, Pharm.D. is the preceptor for the Critical Care and Advanced Critical Care experiences for the PGY-1 general and mental health residents. She graduated from North Dakota State University College of Pharmacy. After
Frequently Asked Questions

graduation, she completed a General Practice Pharmacy Residency at the Minneapolis Veteran Affairs Medical Center. She worked at United Hospital in St Paul, MN as clinical specialist in ICU/Heart-Lung areas for 4 years prior to coming back to the VA Medical center to be a critical care specialist. She holds a Clinical Instructor appointment through the University of Minnesota College of Pharmacy.

Other preceptors: Simon Akerman, Kevin Burns, Beth DeRonne, Erica Dimitropoulos, Kelli Hall, Rachel Hokeness, Kimberly Kaufman, Lindsey Pritchard, Lisa Samaroo, Jacob Schultz, Elizabeth Trayers, Anders Westanmo

1. Where is the Minneapolis VAHCS located?

Our address is One Veterans Drive, Minneapolis, MN 55417. We are located a few blocks west of the Mississippi River and conveniently on both the light rail and bus lines. (Intersection of MN HWY 55 and 62, just north of the MPLS/St. Paul Airport and Mall of America). Free on-site parking is available.

2. What is the purpose statement of the pharmacy residency program?

A. PGY-1 Pharmacy Residency: PGY1 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

B. PGY-2 Psychiatric Pharmacy Residency: The purpose of this PGY-2 residency program is to produce a psychiatric pharmacist who functions as a practice leader and focuses on patient centered care through interdisciplinary team development, education, and medication therapy optimization. Experiences are offered across a variety of care settings, and graduates of the MVHCS psychiatric care residency program will be highly qualified independent practitioners able to excel at providing adult inpatient and ambulatory care psychiatric services.

3. Is the residency program ASHP accredited?

Our PGY-1 Pharmacy Residency has been accredited since 1963 and is recognized as 1 of 12 original ASHP accredited pharmacy program sites. Our PGY-1 Mental Health track is a component of our PGY-1 Pharmacy Residency program and thus is accredited. Our PGY-1 Ambulatory Care/Rural Health program has been accredited since 2011 (est. 2010). Our PGY-2 Psychiatric Pharmacy position has been accredited since 2013 (est. 2013).
4. How does the PGY-1 Mental Health Track differ from the PGY-1 General Residency?

The PGY-1 Pharmacy Resident with the Mental Health track completes the same core rotations as the PGY-1 Pharmacy Residents but the resident selects mental health focused electives. Throughout the year, the resident works closely with the PGY-2 Psychiatric Pharmacy Resident as well as Mental Health services through an interprofessional education-based curriculum.

5. How many residents are recruited?

A total of 6 residents: We are currently recruiting four PGY-1 residents (one with the Mental Health track), one PGY-1 rural health/ambulatory care resident, and one PGY-2 Psychiatric Pharmacy resident.

6. What are the pharmacy residency application requirements and how do I apply?

We Utilize PhORCAS for the application process
A. Register with ASHP Resident Matching Program
B. Doctor of Pharmacy degree from an ACPE accredited school of pharmacy
C. U.S. citizenship
D. Pharmacy licensure or test eligible

8. What benefits are residents eligible for?

A. Health insurance, life insurance, dental insurance, vision insurance
B. Residents accrue 4 hours of sick leave and 4 hours of vacation each 2 week pay period
C. Residents are not scheduled to work on federal holidays
D. Travel and registration reimbursement may be provided for national and local meetings
E. Rice Lake PGY1: Housing is supported in Rice Lake, WI.

9. What is the resident stipend?

A. PGY-1 Resident: $43,668
B. PGY-2 Resident: $47,307

10. Does the Minneapolis VAHCS interview interested candidates?

Yes. After all applications are received, we carefully review the submissions and contact a selection of candidates for an onsite interview.

11. Are site tours offered before interview?

Yes! We believe if you are unable to complete rotations at our facility as a student, it is important to visit our facility before applying. We will be offering two scheduled tour dates, one in the fall (late October) and one in the winter (Christmas break). If you are interested in scheduling a tour, please contact PGY-1 residents.
12. Does the Minneapolis VAHCS pharmacy residency program participate in the match?
   Yes.

13. Are residents able to complete rotations at other sites?
   Due to the structure and funding of our residency program, we are unable to offer rotations offsite. However, we do our best to accommodate residents with specific goals and desired experiences during their elective rotations and through focused longitudinal experiences.

14. Is BLS/ACLS mandatory?
   All residents will undergo BLS/ACLS training as part of residency orientation.

15. What is the staffing requirement?
   PGY-1 Pharmacy Residents traditionally have been required to staff inpatient 1 out of every 4 weekends and 1 evening shift every 4 weeks. The PGY-1 Rural Health/Ambulatory Care Resident performs their staffing duty with the outpatient pharmacy on a custom schedule.

   Staffing requirements may adjust based on departmental needs or quality improvement initiatives. Any staffing modifications will be bound by the ASHP Pharmacy Specific Duty Hours Requirements: http://www.ashp.org/DocLibrary/Accreditation/Regulations-Standards/Duty-Hours.aspx
